END Caps

- Proven research to suit customer's application needs.
- Precise manufacturing according to international standards.
- ISO 9001 Quality System Accredited Manufacturing environment.
- Stringent testing to international standards.
- Technical service and consulting back up.
- Installation and jointing advice and services.
- Assured timely deliveries.
- Maintenance-free system and long-term reliability.

UPVC pipes and fittings are manufactured as per the following standards

- ◆ Above Ground : BS EN 2000 : 1-1329
This standard supercedes BS 1993 : 4514 and BS 1989 : 5255
- ◆ Below Ground : BS EN 2000 : 1-1401
This standard supercedes BS 1993 : 4514 and BS 1989 : 5255
- ◆ Pvc high pressure pipes & fittings

Discharge pipes and fittings of mineral-reinforced polypropylene. The requirements of DIN EN 1-1451 in association with DIN 10-19560 apply. Production acc. to Z217-42.1-

In view of the excellent mechanical and acoustic properties, this system is suitable for all fields of building construction

PP-R PIPES AND FITTINGS

PPR System is plastic piping system used for hot and cold water distribution in buildings, floor and central heating and air-conditioning

PEX-c pipes are electron beam cross-linked polyethylene pipes (PEX-c). They have been successfully used in sanitary plumbing (hot and cold water systems) and heating applications (UFH and radiators) for more than 30 years.

PEX-c pipes stand out for their resistance against pressure, temperature and corrosion. Because of their flexibility, PEX-c Pipes are optimal for drinking water distribution and heating in all types of residential and commercial buildings.

PEX PIPES & FITTINGS

GI hanging clamps with dual nuts M8 / M10
Noise suppression rubber strip according to DIN 4109

It unites all the requirements of a modern house discharge system from sound insulation and fire protection. Its Chemical resistance and hot water resistance have been taken on. What has come about is a qualitatively high grade house discharge pipe system with a maximum degree of compliance to all the requirements.

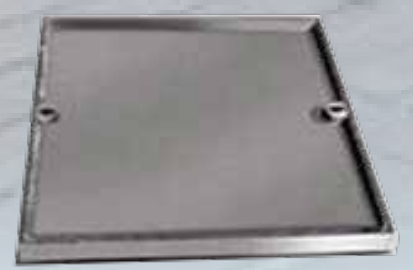

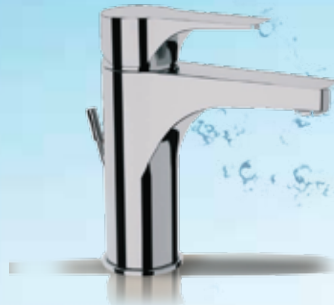

HDPE Pipe & fittings for water, gas & Irrigation system complete range in SDR 11 & SDR 17 (Electro fusion & Butt Fusion)

Brass CP Sanitary plumbing and pipe fittings

Here you will find bathroom mixers for wash basins, showers, bath tubs and bidets. With their comprehensive range of products, Hansgrohe and Axor are perfectly capable of fulfilling all your requirements. Whatever your spatial options may be, or whatever budget you have available to you.

Ductile & cast iron manhole cover with frame and products that includes Gully Gratings, Rectangular Manhole cover, Triangular Manhole cover, Recessed Manhole cover, Double Triangular Gully Gratings Etc....

MX-200 Cast Brass Chrome Plated / Stainless Steel Square Type Floor Drain With Grate & Cover For Pvc Pipe

MX-300 Cast Brass Chrome Plated / Stainless Steel Square Type Cleanout for Pvc Pipe

MX-400 Cast Brass Chrome Plated / Stainless Steel Square Type Floor Drain With Grate for Pvc Pipe

Water pumping, treatment pressurization and conversation products for urban, rural, irrigation and commercial application.

Water Pumps for domestic & industrial pressure system, horizontal & vertical multi stage pumps for multiple application
